

NR-EC1800 Evaporative Cooler

NR-EC1800

Product Overview

High efficiency – capable of cooling large areas from a relatively small electrical load since no 'mechanical' cooling takes place

Suitable for open areas – such as warehouses, large factories, night-clubs, marquees & outdoor events as an alternative to traditional air conditioners

Compact footprint – fewer mechanical components reduce overall unit dimensions

Integral storage tank – requires water top up to provide cooling – it is also possible to connect these units to a constant mains water feed

Performance Data

Nominal Air FlowRate.....1,800 m³/hr
Typical Cooled Area..... 50 m³

Electrical Data

Power Supply230/1/50 V/ph/Hz
Power Connection3 pin plug
Maximum Running Current1 A

Cooling Circuit

Integral Storage Tank Volume.....48 litres

Physical Data

Length620 mm
Width375 mm
Height868 mm
Maximum Operating Weight63 kg
