

NR-EC2600 Evaporative Cooler

NR-EC2600

Product Overview

High efficiency – capable of cooling large areas from a relatively small electrical load since no 'mechanical' cooling takes place

Suitable for open areas – such as warehouses, large factories, night-clubs, marquees & outdoor events as an alternative to traditional air conditioners

Compact footprint – fewer mechanical components reduce overall unit dimensions

Integral storage tank – requires water top up to provide cooling – it is also possible to connect these units to a constant mains water feed

Performance Data

Nominal Air FlowRate.....2,600 m³/hr
Typical Cooled Area.....80 m³

Electrical Data

Power Supply230/1/50 V/ph/Hz
Power Connection3 pin plug
Maximum Running Current1 A

Cooling Circuit

Integral Storage Tank Volume.....60 litres

Physical Data

Length700 mm
Width466 mm
Height1,017 mm
Maximum Operating Weight80 kg
